

Solution Brief

Cisco+

Rethink hybrid cloud with intelligent consumption of on-premises resources through Cisco+ delivered through Insight.

Under pressure to reduce risk while prioritizing transformation and innovation, organizations are increasingly looking to As a Service models to leverage modern IT solutions while reducing CapEx spend. Hybrid cloud solutions as a service from Cisco+, delivered by Insight, allows those organizations to achieve the flexibility of cloud while optimizing for spend, simplicity, and agility.

Cisco+ delivered by Insight provides you with the industry's first comprehensive offering for complete hybrid cloud solutions delivered as a service. Cisco+ enables your business to reduce risk and capital expenditures through a consumption model aligned to cloud service tiers for hardware, software, and services, giving you the flexibility to scale as needed and run workloads where they make the most sense.

Working with Insight for Cisco+ allows you to take advantage of our long-standing expertise and leadership in storage and public cloud, and in-depth partnership with Cisco to make the most of As a Service infrastructure for your organization. As your go-to Cisco+ partner, Insight can help your organization align infrastructure consumption and services with your business needs, monitor, manage, and optimize your solutions, as well as provide ongoing support and bundle related services.

Complete services in a single partner

Insight's approach to delivering Cisco+ drives value for the consumer through our ability to wrap a full portfolio of services around the entire portfolio of Cisco's As a Service solutions. Deep partnerships with Cisco and other industry-leading service providers in cloud, compute, security, data protection, and more, allow Insight to deliver a complete scope of services in a single technology partner — allowing clients to experience strategic solutions and comprehensive support for their hybrid cloud infrastructures.

Key benefits:

Complete pricing transparency
and no contract minimums

Better manage risk
from cloud and business uncertainty

Reduce CapEx spending
through OpEx models

Scale rapidly up/down
to accommodate fluctuations

Simplify capacity planning
by removing added cost pressures

Enhance on-premises performance
while supporting hybrid cloud initiatives

Make workload decisions
without infrastructure limitations

Cisco+

Storage as a Service (STaaS) service level details
