

Microsoft Hybrid Cloud Security Workshop

Learn how to build a more robust cloud security system.

Business challenge

As the use of cloud services continues to grow, cyber risks and threats continue to evolve. Do you have a good understanding of security vulnerabilities in your hybrid and multicloud environment, including Virtual Machines (VMs), databases, Azure® storage and more? Are you aware of the number of suspected authentication activities across your multicloud environment? In short, are you confident about the cloud security posture of your organization?

Get help achieving your hybrid and multicloud security objectives — and identify current and real threats — by scheduling a Microsoft Hybrid Cloud Security Workshop.

Our solution

Given the volume and complexity of identities, data, apps, endpoints and infrastructure, it's essential to learn how secure your organization is right now, and how to mitigate and protect against threats moving forward.

We can help you develop a strategic plan customized for your organization and based on the recommendations of Microsoft® cybersecurity experts. You'll gain visibility into immediate threats and vulnerabilities across Azure, on-premises and multicloud environments, plus clarity and support on how to improve your security posture for the long term.

By attending this workshop, you can:

- Identify current security threats and vulnerabilities in your hybrid and multicloud environment.
- Walk away with actionable next steps based on your specific needs and objectives.
- Document your security priorities and needs for the benefit of key stakeholders.
- Better understand how to accelerate your security journey using the latest tools.

Benefits

- Discover threats and vulnerabilities in your hybrid environment.
- Learn how to prioritize and mitigate potential threats to your servers and services.
- Understand what can be done to reduce the attack surface area for hybrid workloads.
- Learn about benefits and capabilities of Microsoft Defender for Cloud and Azure Network Security.
- Develop defined next steps based on your needs and objectives.

What to expect:

During this workshop, we'll partner with you to strengthen your organization's approach to hybrid cloud security. The objectives for the Hybrid Cloud Security workshop engagement are:

- **Experience Defender for Cloud** — Get hands-on experience and learn how to deploy and configure Defender for Cloud including workload specific plans.
- **Discover and analyze threats using Defender for Cloud** — Learn how to use Defender for Cloud to get visibility into threats to your hybrid cloud workloads.
- **Understand existing vulnerabilities to hybrid workloads** — Learn how to use Defender for Cloud to understand existing vulnerabilities and how to reduce the attack surface area for hybrid cloud workloads.
- **Azure Network Security Exploration** — Understand the capabilities provided by selected Azure® Network Security products including Azure Firewall, Azure Web Application and Azure DDoS Protection.
- **Plan next steps** — Get the information required to build a business case for a production deployment of Defender for Cloud with the appropriate workload specific plans.

Why Insight for Microsoft solutions?

Insight's strong supply chain optimization and workplace solutions, combined with our data center transformation expertise and modernized applications, keep businesses running, foster flexible work environments and put you at the forefront of innovation.

 Gold Microsoft Partner Azure Expert MSP	Winner of 6 Partner of the Year Awards for 2021 11 advanced specializations including Identity and Access Management and Threat Protection.	Microsoft partner for 25+ years	700+ workplace transformation engagements	A top Microsoft partner for enabling Autopilot	
 15 Gold & 2 Silver competencies	 2M+ users supported	 2.5M+ devices supported	Supported 500+ customers enabling 150k devices in Autopilot and Modern Management in 2021	1M+ Office 365/Windows migrations annually	Gartner 2021 Magic Quadrant for Managed Workplace Services for the fifth consecutive year

A true end-to-end partner

Today, technology isn't just supporting the business; it's becoming the business. At Insight, we help you navigate complex challenges to develop fresh solutions and processes. We'll help you manage today's priorities and prepare for tomorrow's needs.

About Insight

At Insight, we define, architect, implement and manage Insight Intelligent Technology Solutions™ that help your organization run smarter. We'll work with you to maximize your technology investments, empower your workforce to work smarter, optimize your business and create meaningful experiences.
