Integrated services for Microsoft

Our Enterprise Support Services span a large scope of Microsoft offerings, so we can add value to your investment no matter how big or small. Benefit from support services that cover all major Microsoft solutions — in the cloud and on-premises.

- Microsoft Office 365®
- Exchange
- SharePoint®
- OneDrive® for Business
- Microsoft Teams®
- Skype® for Business
- Windows® 10 & 11
- Microsoft Enterprise Manager (Intune and SCCM)
- Microsoft 365™ Security
- Microsoft Infrastructure
- Microsoft Identity Services
- SQL Server®
- Azure® IaaS and PaaS
- Dynamics 365®

If you've been dealing with increasing costs for Microsoft Unified Support tied to your EA, Insight can help. Our Enterprise Support Services provide a proven, flexible alternative to Unified Support. Here's how.

Benefits at a glance:

Reduce admin-to-admin support costs for your Microsoft investments.

Pay only for the support you need.

Convert unused contract hours to professional services.

Gain additional access to proactive add-on services like technical workshops, roadmap development and more.

Get flexible, on-demand access to Insight's Microsoft experts with escalation to Microsoft as needed.

Transform your Microsoft investment.

Deploy a flexible and expert-led solution that meets constantly evolving needs, maximizes resources — and positions your business for digital workplace success.
