

Solution Brief

# Employee Experience With Microsoft Viva Workshop

## Business challenge

In today's world, employees want more flexible remote work options and meaningful in-person collaboration. Empowering people to thrive in a more flexible work world requires rethinking everything — from how you empower managers, to how you create culture, to how you reimagine the employee experience.

As your employees are challenged with a growing imbalance between work and life, increased burnout and decreased well-being, and your teams and organization face diminishing social capital, there is an urgent need to digitally reimagine the employee experience. That's where the Microsoft® Viva® suite of Employee Experience (EX) tools comes in.

## How we help

Discover how Microsoft Viva, an integrated platform built on top of Microsoft Teams®, will help your people thrive in the new digital workplace.

In this four-phase engagement, we'll show you what's possible with Microsoft Viva and help build a plan to implement a relevant EX in your organization. We'll also deep dive into the Viva suite to break down the benefits of Viva solutions, including Connections, Engage, Amplify\*, Insights, Pulse\*, Goals, Topics and Learning (\*coming in 2023).

## Workshop details

Insight will work with you to determine an agenda for this remotely delivered workshop that provides the most relevant content to your organization. The workshop is delivered in four phases:

**Phase 1:** Pre-workshop discovery — Insight will meet with you to determine your requirements and areas of focus for discussion and deliverables.

**Phase 2:** Understanding EX and discovering the “art of possible” — Insight will provide an overview of Viva solutions delivered with up to four hours of content.

**Phase 3:** Build the plan — Insight will work with you to define and prioritize use cases and identify business impact, level of effort and success criteria with up to four hours of content.

**Phase 4:** Report out, recommendations and next steps — Insight will take the information gathered from the workshop to provide a roadmap and recommendations for Microsoft Viva in your organization.

## Deliverables

1. A prioritized list of business scenarios that can be addressed by deploying Microsoft Viva
2. Recommended preparation in terms of skills and best practices
3. A plan outlining potential workstreams and dependencies
4. A roadmap for EX and next steps, including recommended Insight services and a services statement of work
