

Microsoft Next Gen Endpoint Workshop

Hybrid work and transformational end user computing experiences.

Business challenge

In our new world of work the endpoint is the new workplace, and hybrid work is driving the endpoint strategy. The shift to remote and hybrid work represents a shift in how we think about providing people with the tools they need.

Organizations - 77 percent of those surveyed - agree on the importance of providing the latest technology to their employees and giving users the devices that they want, all while giving IT the ability to keep them secure.

As a result, hybrid work is driving user segmentation. Companies need to invest in role-specific end-user computing solutions and IT needs an integrated cloud service to manage the growing complexity.

Our solution

Insight's Microsoft Next Gen Endpoint Workshop will empower you to bring together a complete end user computing experience with a holistic solution. The workshop will be customized to meet your organization's specific needs.

Let us show you how you can leverage Windows 365, Windows on Azure Virtual Desktop, Microsoft Endpoint Manager, and Windows 11 Enterprise to bring together a complete solution for the hybrid work world of today and tomorrow. Our workshop will enable you to:

- Understand hybrid work scenarios and end-user computing goals and objectives.
- Gain insights into physical and virtual devices landscape.
- Learn how Windows 365, Azure Virtual Desktop and Microsoft Managed Desktop solutions provide a secure desktop experience from virtually anywhere.
- Define joint next steps.

Managed Endpoint

Experience the power of modern device management.

The next generation of endpoints represents a shift in how our clients are solving end-user computing challenges. Across Information Workers, Frontline Workers, and Temporary / Elastic workforces, our clients are looking for the latest and most innovative solutions to answer those challenges.

Attend this workshop if you want to:

- Better Understand when and how to leverage cloud PCs with Windows.
- How best to manage virtual endpoints across Windows 365 and Azure Virtual Desktop.
- Leveraging Windows 11, the most secure OS yet, to enable hybrid work for all employees.
- Implementing best practices for endpoint management with Microsoft Endpoint Manager.

Why Insight for Microsoft solutions?

Insight's strong supply chain optimization and workplace solutions, combined with our data center transformation expertise and modernized applications, keep businesses running, foster flexible work environments and put you at the forefront of innovation.
